

It's a great time to join the Chamber

In the midst of an economic downturn, it may seem like a challenging time to expand and retain membership. Many businesses may be hesitant to spend money on something that is not a "necessity."

While moderation and wise judgment must not be thrown out, research has shown that those that keep themselves visible during economic recession maintain and even increase their sales after the recession subsides. Your Berthoud Area Chamber of Commerce partnership may be the perfect return on your business investment during these hard times.

In addition to the value of listing your business in the Membership Directory and Visitors Guide, a Berthoud Area Chamber of Commerce membership offers other special benefits such as networking, consumer leads, business information and targeted advertising opportunities.

In 2008 the Berthoud Chamber of Commerce implemented a state-of-the-art, Web-based program known as ChamberMaster. ChamberMaster is a powerful marketing tool that puts YOU, the member,

in control and offers "free" advertising with unlimited updates. Members can promote "Hot Deals," offer online coupons, communicate events and display job postings – all with worldwide exposure.

Additionally, the Berthoud Chamber offers very affordable sponsorship and networking opportunities at our informative monthly luncheons, free business after hours and other various events throughout the year.

If you are interested in a Berthoud Area Chamber of Commerce membership or currently a member and not utilizing all the features available to promote your business, please call Don Dana at (970) 532-4200 for further assistance.
